HISTORY	17	54	Unlucky. J.W.
GEOGRAPHY	12	50	A most disappointing examination result. He must make a real effort to get his ideas on paper more quickly. R.B.
LATIN	5	69	Ready improvement in term, and a good examination result. J.W.F.
FRENCH	10	63	
GREEK or GERMAN			
MATHEMATICS	7	59	He can do really good work. N.T.
CHEMISTRY	1	58	He does very well, but he must exercise more control over his work and over his conduct. P.M.
PHYSICS	1	70	Very good. G.W.
ANCIENT HISTORY or BIOLOGY	9	-	
ART or CRAFTS			

### REMARKS

Next Term will begin on 12 January 1961

*S.H. / Ambidge*  
 Headmaster

\*If no remark is made it may be assumed that a boy's work and conduct are such as to merit no specially adverse comment. The letter "A" means that absence has materially affected the boy's position. N.P. means "Not Placed." The marks given are the percentages in the Terminal Examinations only. The final position, however, is obtained by including with these the marks obtained during the term.

Nigel Wood, the subject of this report from 1961, says: "Some of the comments are quite amusing. For example there was no ill luck involved in my history performance - I simply never did a stroke of work in history, as far as I can remember. On the other hand I did try quite hard in Chemistry, but never managed to get into Mr Ambidge's good books".
